

**ISDS 3107**  
**Assignment 7: (Mostly) Static Pages**  
**Due: 3 November 2020**

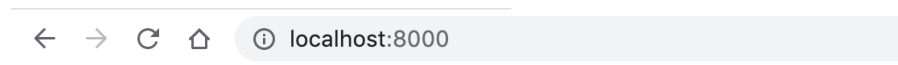

Description

The goal of this assignment is to demonstrate the ability to create a Django app utilizing HTML templates and deploy it to Heroku.

Examples of these types of operations will be discussed in the book and lectures.

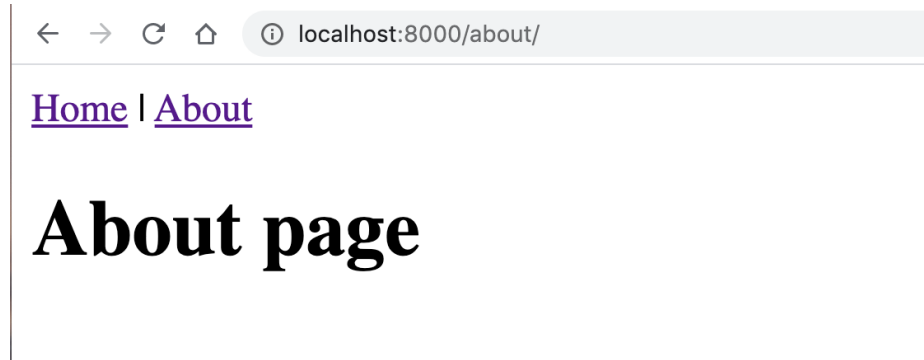

Requirements

Create an app similar to the Static Pages app introduced in the book (ch. 3 & 4) and deploy it to Heroku.
